

This route is now operated by Stagecoach using single deck buses but care should be taken with encroaching high hedges and low branches. It is a short working of the route to Slapton in previous years. Storms in February damaged the roadway preventing through traffic and now the tank car park is reserved for remedial engineering works. Obviously the businesses at Torcross have been badly affected so we are pleased to have arrangements with the Start Bay Inn enabling us still to run to Torcross in 2026.

Turn RIGHT out of the bus station, then RIGHT 2nd exit at the roundabout and follow A379 along the estuary, drop down then follow road RIGHT across the long bridge over Bowcombe Creek. Proceed through **West Charleton**, then **East Charleton**, **Frogmore** and **Chillington** (NB 20mph limits).

At Carehouse Cross mini roundabout in Stokeham, proceed AHEAD staying on A379. Wind down past the church and Church House Inn and on to the bend at **Torcross**. Note bus stop lay-by on LHS just round bend but continue past car park strip on LHS and prepare to reverse park in Start Bay Inn car park on RHS. Cones are due to replace the red car parked at the time of the Google Earth survey.

Care is needed with clear conductor directions to reverse into the pub car park.

Please encourage passengers to see the damage the sea has wrought (just a short walk along) and patronise the Start Bay Inn. There is a regular service and passengers can return on a later service if they wish.

Turn back out LEFT passing Torcross bus stop on LHS and retrace route on A379 back to Kingsbridge. Enter town along the Embankment and turn LEFT into the bus station.

KINGSBRIDGE - TORCROSS
